

“I want everyone to have the experience we had. If they only knew about Women’s Care Center, I believe women would choose life **every time!**”

says dad Dane (*shown with son Dayan*).

GRATITUDE REPORT

2024

Two of your babies!

"I was in a domestic violence relationship. It was so bad I was thinking about abortion," says Jessyca.

"My mom encouraged me to check viability first. That's when I got my first ultrasound and saw two babies. I knew I would never forgive myself for aborting.

"My counselor said, 'We will help you with whatever you need.' And you absolutely did.

"The donors made it possible for me to become a good mom. Even if you have a favorite restaurant, there is going to be one time that doesn't live up to your expectations. But at Women's Care Center, **I have never once had a less than excellent experience."**

"When I was pregnant with my second child, my husband and I were out of work," says Stephanie. "Initially I came for just one ultrasound, but found so many resources.

"I just want to say thank you to the donors. **I'm tearful expressing the depths of my gratitude. I don't think we would have made it through without you.**

COVID had a huge impact on our financial situation, but I never had to worry about basic necessities for our children. And you have changed my life. It has been a radical commitment to bettering my parenting. I have been coming weekly for five years, but it isn't the diapers that keep me going...it is everything else — the community, the love, and the support."

One of your families... Mila (4), Marlee (8) and Micah (2)

"It was hard for us to accept a pregnancy with all the burdens we faced. But now when I look at her, **she is such a light.**

I am so blessed,"

says Kailyn
(shown with Baby Kimberly).

✓ **Because of you...
More women are coming here FIRST!**

Over the last nine years, the number of women coming to our centers considering abortion is almost **5 times** what it used to be. But thanks to the love, hope and encouragement of people like you, **9 in 10** women still choose life!

51% of the women who walk through our doors in Fargo and Devils Lake are thinking about abortion.

96% ultimately choose life.

Whitley is one of your blessings!

"My youngest had just turned 18. I was really concerned about having a baby at my age," says Becca.

"I made an appointment for an abortion.

"My counselor was so calming. And when I found out that I was having a girl, it changed things for me. My mom died when I was five years old, and I just sensed that I was connected to her by this little girl.

"Even though I am older, I feel like I am better equipped to be a mom than I ever was before. **I have learned to be truly present to her and appreciate every moment. I know how quickly it goes."**
