NOVEMBER 2017

YOU HELPED THEM LEARN TO PARENT!

Adam had changed a diaper only once in his life before. **But today he is a very capable dad.** His fiancée Megan laughingly says, "Our counselor taught him everything he knows!"

While Megan attended parenting classes, Adam got one-on-one instruction on diapering and other practical baby basics from their counselor. Now parents to a happy little boy named Lincoln, Megan and Adam look forward to their upcoming wedding.

Megan and Adam with baby Lincoln

SCHOOL, MARRIAGE, SECOND BABY...in that order!

These are Jennyfer's future goals today.

A year ago, things were much different though. Jennyfer was crying at our center, worried about being pregnant, and thinking about abortion. Our counselor gently encouraged her to talk with her mom. Afraid to do that directly, Jennyfer confided in her older sister, and that did the trick! Her mom has been so supportive in encouraging her to choose life.

Jennyfer's pregnancy has only motivated her to work harder. She was accepted into a program, and is training to be a dental assistant. She completed our entire birth preparation program and attended parenting classes. **She also reconnected with her faith, had her baby baptized, and has committed to abstinence.**

Smiling, Jennyfer now says she wants to finish school and get married first...and then have another child.

SO MANY BABIES SAVED!

1,543 babies (like Max) will enjoy their first Christmas this year in Madison and Milwaukee...*because of you!*

Your love and support of this life-saving mission, helps moms and dads like his find the courage to overcome fears and choose life. **Today Max is beloved by his parents.** Just think of the joy at Max's house as this little guy celebrates his first Christmas!

It is no wonder that abortions have declined 36% in Milwaukee since we opened in 2010 and 19% in Madison since 2012.

THANKS TO YOU...HEARTS ARE TOUCHED.

YOUR SUPPORT SAVED JAXSON

Last Thanksgiving, Dale and Lianne were sitting in a counseling room, burdened with worries, thinking about abortion.

You see, the couple had always wanted children. They had tried unsuccessfully to have a child. But now, Dale was struggling with a chronic health condition, and it seemed impossible.

Our counselor lovingly encouraged them to get the facts about Dale's health and consider all their options. **And with the promise of help from our center, they chose life.**

This decision has led to so much good. Dale now says, *"I actually feel better. I think this baby has given me the will to get better."* And the couple grew closer and are now married.

Lianne says, "Women's Care Center helped us not rush into a decision we both would have regretted. Jaxson has changed our lives."

Olivia's baby

EVERYDAY MIRACLES

"No one can know I'm pregnant," worried "Olivia" as she sat in the counseling room at our Madison center. When she first came here, abortion was the only option she could see. But as she returned for more visits, her eyes were opened. She WAS capable of being a courageous new mom!

Months later, Olivia snuggles her precious baby. Full of maternal pride, Olivia can't show him off enough, and is quick to pull out pictures for anyone who asks. Once afraid to parent, Olivia now finds herself happier than ever. She says, **"I cannot imagine my life without him."**

Miracles happen every day, especially at Women's Care Center.

2D ultrasound

3D/4D ultrasound

"The 3D/4D ultrasound made him look so real! That is what made me change my mind. After looking at his perfect face, I could never have an abortion."

~ A new mom

THANKS TO YOU...FAMILIES ARE BUILT.

SO HAPPY IT HURTS!

"My face always hurts after coming here—I smile too much!"

That's a "problem" Erica is happy to have at Women's Care Center. Though many obstacles stood in her way, Erica chose to fight for a better life for her baby. Visits here helped her make healthy choices and find the balance she needed. One of her favorite parts—parenting classes. Displaying a natural way with children, Erica became known as the "baby whisperer" for how she interacted with other babies in the classes. Several months later, Erica got to put these practices to the test after delivering her own baby.

PROMOTING LITERACY

Giovanni has a "library" of books his parents received from our center. You might not know that most young and poor families do not have any books in the home. But thanks to your generous support, our babies have books to help them fall in love with reading.

If you are looking for a tangible item to donate this Christmas, please think of new or gently used children's books for our babies.

babies!**

HEALTHY BABIES

You might be surprised to learn that for many women, our center is the only prenatal care they receive in the first trimester. This is why we distribute free prenatal vitamins and educate about having a healthy pregnancy and breastfeeding. We also help with finding a doctor. And for those needing more, we provide an in-depth one-on-one birth preparation program.

Thanks to your generous support, baby Isabella's mom participated in prenatal education. Isabella weighed in at a healthy 8 pounds at birth, and her mom is breastfeeding.
