WOMEN'S CARE CENTER • SEPTEMBER 2021

34 CENTERS IN 12 STATES | TREASURE COAST, FLORIDA EDITION

*Malachai's Story Inside!*

# You Did It! Fort Pierce Opens!

Driving down Delaware, you will now see a big hot pink sign in front of our new Women's Care Center. Homelike and welcoming. Since opening in August, our new center has already become a magnet for pregnant women in need, attracting women from Saint Lucie and Indian River Counties and the surrounding area. One of the first abortion minded women served left with prenatal vitamins and a baby boy onesie.

It is only because of YOU that women like this are now able to find love, hope and encouragement to choose life instead of abortion.

## TWINS x 2!

The first set of twins was a blessed surprise... *But the second set?* At first, Maria thought it had to be a joke!

"When I looked at the screen, I saw two right away and the sonographer said, 'Oh my goodness! Do you see this?'"

Maria was shocked to be expecting a second set of twins in just 13 months.

"I have been leaning on Women's Care Center through all of this. My husband and I were able to earn cribs, car seats, clothes and diapers for all of our twins."

**TO THE DONORS, SHE SAYS,**

"Thank you! I love my kids so much, they make me so happy. I don't know what I would do without them!"

Maria's twins

## Crib Club...

This program encourages moms and dads to learn vital parenting skills and take steps to self-sufficiency. By going to classes, parents earn coupons they can redeem for brand new baby items in our Crib Club "baby store." Many of those we serve do not have the resources to buy baby items with a new tag on it. The feeling of accomplishment to earn something like this is game-changing. **Not a hand-out, Crib Club is a powerful hand-up.**

## "You were the only one who was here for me..."

says Chesney.

"His father was not the person I hoped he would be. I was leaning towards abortion. When I talked to my mom, she told me to get one, so I realized I wouldn't have her support.

"My counselor shared that she had her first child young. It inspired me to hear that it was possible and to see her now...it made me feel like I could do it, too.

"Deciding to keep him was gradual. At my first ultrasound, it was just a little flutter! As time went on, I got to see more, and it got more exciting every time.

"I want to say thank you to the donors for supporting a place like this. It is so important for people who aren't sure of their decisions.

"I love everything about being Malachai's mom. He is such a good baby. I had a good pregnancy, good labor. I don't know how I got so lucky."

## Donor finds help

After having her first daughter, Angelica had baby items to donate and heard about Women's Care Center. But when she arrived, she found out we offered free pregnancy tests, and...*surprise!* She was pregnant!

"I just needed help parenting and, right away, these classes were SO good, I couldn't stop coming!"

And soon, her husband Andrew started coming too.

"I wanted to be involved as a dad and do something with Angelica. I loved the fathers' classes. Really encouraging each other as fathers was my favorite. It wasn't just one-sided. It was an open discussion, and we were all part of it."

Angelica, Andrew, Elizabeth and Mossimo

## "Women's Care Center saved me," says Edith.

"I had a lot of tough stuff in my past. But my counselor has been in my corner from day one. She listens... and she tells me the truth. Now, I'm doing the right things to be a good mom.

"I know how it feels not to have a loving home...to go to your friend's house just because their mom and dad love and care about each other. But he's not going to need that. I am going to raise Noah to know he is always loved.

"When he grows up, I want him to be kind, smart, generous, work hard and believe in himself. And I'm thankful to the counselors, but also the donors who made it so I could come here and learn so much."
