WOMEN'S CARE CENTER • SEPTEMBER 2021

34 CENTERS IN 12 STATES | LINCOLN, NEBRASKA EDITION

*Malachai's Story Inside!*

**"You saved me,"** says Edith.

"I had a lot of tough stuff in my past. But my counselor has been in my corner from day one. She listens...and she tells me the truth. Now, I'm doing the right things to be a good mom.

"I know how it feels not to have a loving home...to go to your friend's house just because their mom and dad love and care about each other. But he's not going to need that. I am going to raise Noah to know he is always loved.

"When he grows up, I want him to be kind, smart, generous, work hard and believe in himself. And I'm thankful to the counselors, but also the donors who made it so I could come here and learn so much."

Because of you...  
so many babies!

Every week, another  
5-6 babies are born  
to our moms in Lincoln.

It is so exciting to see these precious little ones. This week, we got a visit from Sara and Kevin with their new baby girl Lorelei. Sara says, *"It was so nice to be able to have an ultrasound early and to hear the heartbeat."*

Thank you for making this  
mission possible in Lincoln.

Edith's baby Noah

Kahri's baby Lexzie

## You save babies like Lexzie!

"I was working 60-70 hours a week. I wanted to get an abortion," says Kahri.

"In the ultrasound, I got to see my baby! After that, whenever I felt weak and thought about abortion, I just kept pulling out that ultrasound picture.

**That picture reminded me, this baby is here. She's real.**

**This baby, Lexzie, is my angel, because she saved me.**

**She saved my family life.** I still work hard to provide for my kids, but now I know that work is not everything.

"Every single day, I gather them together and tell my kids, '*you are smart, you are strong, you are beautiful, and you are loved.*' That's the kind of unconditional love I want them to grow up understanding."

## "You were the only one who was here for me..."

says Chesney.

"His father was not the person I hoped he would be. I was leaning towards abortion. When I talked to my mom, she told me to get one, so I realized I wouldn't have her support.

"My counselor shared that she had her first child young. It inspired me to hear that it was possible and to see her now...it made me feel like I could do it, too.

"Deciding to keep him was gradual. At my first ultrasound, it was just a little flutter! As time went on, I got to see more, and it got more exciting every time.

"I want to say thank you to the donors for supporting a place like this.

It is so important for people who aren't sure of their decisions.

**"I love everything about being Malachai's mom.** He is such a good baby.

I had a good pregnancy, good labor. I don't know how I got so lucky."

## Donor finds help

After having her first daughter, Angelica had baby items to donate and heard about Women's Care Center. But when she arrived, she found out we offered free pregnancy tests, and...*surprise!* She was pregnant!

**"I just needed help parenting and, right away, these classes were SO good, I couldn't stop coming!"**

And soon, her husband Andrew started coming too.

"I wanted to be involved as a dad and do something with Angelica. I loved the fathers' classes. Really encouraging each other as fathers was my favorite. It wasn't just one-sided. It was an open discussion, and we were all part of it."

Angelica, Andrew, Elizabeth and Mossimo

## Because of you, the Care Center keeps growing!

You may know that Women's Care Center is the largest pregnancy center in the United States.

**With 34 centers in 12 states, we serve more women and save more babies than any other.**

**But you might not know that your new Lincoln Women's Care Center has already become the "go-to" resource for pregnant teenagers in Lancaster County!**

It's true. Data from the state of Nebraska shows that **1 in 3 babies born to teenage mothers** now start with our center.

Because of you, this new center is attracting large numbers of at-risk pregnant women... those who are young, single and without resources.

***It is only you who make it possible to serve so many women and save so many babies!***
